Enhancing Food Quality and Longevity

Food additives enhance quality, texture, consistency, and appearance, while also improving shelf life.

Starch Sugar

- Dextrose Mono
- Dextrose Anhydrous
- Maltodextrin
- Fructose
- Corn/ Maize Starch

Sweetener

- Liquid Glucose
- Sodium Saccharin
- Erythritol
- Sodium Cyclamate
- Aspartame
- Acesulfame K
- Stevia
- Xylose
- Maltose
- Lactose
- Sorbitol Powder / Liquid
- Sucralose

Thickener

- Pectin
- Xanthan Gum
- Agar
- Guar Gum
- Gelatin
- Carboxy Methyl Cellulose (CMC)

Phosphate

- Tetrasodium Pyrophosphate (TSP)
- Sodium Acid Pyrophosphate (SAPP)
- Sodium Tripolyphosphate (STPP)
- Tricalcium Phosphate Anhydrous
- Dicalcium Phosphate Dihydrate

Stabilizer

- Calcium Chloride
- Propylene Glycol
- Calcium Sulfate

Acidity Regulator

- Lactic Acid
- Citric Acid
- Trisodium Citrate
- Tartric Acid
- Phosphoric Acid

Preservatives

- Sorbic Acid
- Sodium Benzoate
- Sodium Propionate
- Calcium Lactate
- Calcium Propionate
- Potassium Sorbate
- Sodium Dehydroacetate
- Butylated Hydroxyanisole (BHA)
- Butylated Hydroxytoluene (BHT)
- Sodium Metabisulphate (SMBS)

Raising Agent

- Sodium Bicarbonate
- Ammonium Bicarbonate
- Yeast Extract
- Yeast

Emulsifier & Flavour Enhancer

- Soya Lecithin
- Polysorbate
- Carrageenan
- MSG

Others

- Acetic Acid
- Ascorbic Acid
